

Happy Mother's Day!

Oh, Mother!

Your life is an eternity of Divine Love and your courtesy is as wide as the sky. Your womb is the Divine ocean. Your heart is like being in Heaven. With each action you give us knowledge. We are all in the shade of your eternal love.

You take care of us like a spring in the ocean.

Your love is like a wave in the Divine sea.

Each time we fall you take care of us, and when we are upset you don't sleep- you suffer. You give us your compassion and love. How can we forget you and your beautiful smile- like the full moon, washing away the pain and sorrow from our hearts.

You give nourishment to all like a Divine feast, and your breast milk is Divine medicine, which gives us life eternal.

Only our Mother can give us this opportunity.

You are Divine, unconditional love and mercy.

My deepest love and humble pranam at your lotus feet.
